

SP-100 SURGE PROTECTOR

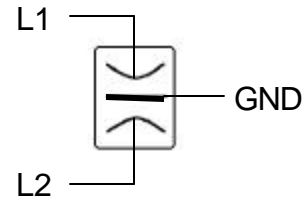

Surge Protector, SP-100, gives extra protection in areas with heavy thunderstorms. It connects between the two-wire path and a ground rod and diverts over voltages directly to the ground.

SP-100 Surge Protector

HARDWARE SPECIFICATIONS:

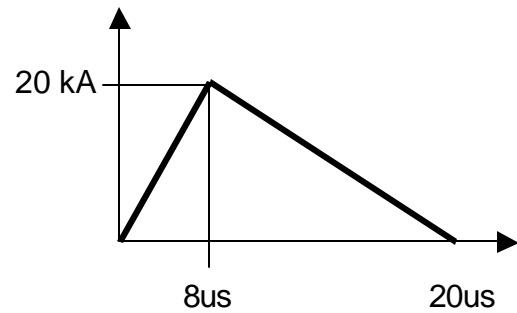

1) Diagram: type is – Siemens T23-A230

2) Normal spark-over-voltage: 230 V

3) Max. spark-over-voltage: 450V

4) Max. current:

ORDER CONFIGURATIONS:
